# BETTER PIECES

The role of a seedstock provider is not to waste resources trying to produce cattle that can do it all. His role is not to provide commercial producers with the complete picture. Instead, his role is to provide commercial producers with better pieces so that they can solve the puzzle that is their livelihood.

• Fri 04 May 2012, 3:46 pm Topic: Rooster

John,

Rooster arrived in the vicinity of the Two Dot bridge after rattling across most of mid-America and part of the west. He looks to be in good shape for such a ride. I'm ecstatic about his use here on my cross-breeding plan. I must commend you and the Charolais breed for what looks to be an excellent set of feet. I'm very impressed. I like his structure. He has an excellent shaped scrotum and epididymis, strong hocks, clean sheathed, high libido, very bully-bully. This is good. He will get put to the test. We'll take some pictures after he gets the trip out of his system. Thanks for everything.

White Squall has done it All with Great Success!  
From Reserve National Champion Bull to walking  
the pastures at Shadow Spring Farm. He has sired  
offspring that have won at shows, topped sales and  
made great mother cows. On this page are three  
first calf heifers and a fall heifer calf by White Squall  
at Shadow Springs Farm.

"Don't you need some White Squall in your pasture?"
