Troy and company have always brought great ones to Denver and this year at the National Sale will be no exception. This "Wrangler NFR" comes to Denver as if fresh from the National Finals Rodeo and ready for the next "go round!"

This great young calf is the incomparable Mustang Sally's natural born calf and expect great things to happen for him. Mustang Sally has done great things before. She was the 2010 AIJCA Reserve National Grand Champion Heifer. She has produced numerous champions and sale toppers, including the Supreme Champion Heifer at the 2013 Ohio State Fair (pictured). Progeny have sold at weaning age for \$62,000, \$27,000, \$20,000, \$7,500 and \$7,000.

They have brought their best to Denver.

Summit Farms is excited to offer this full brother to their principal herd sire Summit HDF Supreme X01 in the National Charolais Sale!

Lot's of folks have admired Supreme X01 for his mass and eye-appeal, but now they recognize that his progeny are equally standouts. At the 2013 Northern Exposure Sale in October his first daughter to sell at auction tops that sale at \$12,500! Several of his sons and daughters will lead the Summit program for years to come.

Summit Andes A50 is deeper bodied and wider based than Supreme was at this age. At six months old he already weighs 770 lbs. and is built like a tank. We think he may be even better than his brother.

Most good cattlemen know that a great herd sire is backed by a great cow and the dam of Andes, may well have this as her legacy. Hoodoo Ms George Z0116 brings the recognition and consistency of the Hoodoo program to Andes pedigree. Her daughter Summit Ms HooDoo 9198 (a full sister to Andes) topped the 2010 Northern Exposure Sale at \$16,500 and her granddaughter Summit Britannia A32 sold for \$8,750 in the 2013 Northern Exposure. This young April stud will demand some attention in Denver!

*Selling 1/2 interest and full possession!*

One of the most popular bulls on the show road this past summer and fall and in the hearts of many breeders that have passed judgment on him. This herd sire has won many shows and many breeders over to his side, for his young Junior Charolais breeder Mason Lewis. MLL Project Fire was the Iowa Champion Bull at the 2013 Iowa State Fair. He was the 2013 AIJCA Junior National Grand Champion Bull and is fresh off his victory at Kansas City during the American Royal as the Grand Champion Bull. The judges and crowd have given great compliments to Project Fire for his moderation, sound structure, big foot and athletic movement.

There is some carcass data to Project Fire that one needs to pay attention too also. Three full brothers that were ultrasounded at a year of age came in with impressive averaged REA of 17.47 and an average IMF score of 4.07! This coming two-year-old has already been semen collected and Mason & Marty will retain that 250 plus units from one jump to continue their small herd.

When one considers the unstoppable show record of his sire Fire Water on the cow family of Thomas Ms Impressive 0641 you truly get excited. Fire Water was of course a National Champion Bull, but the mating of him on Ms Impressive 0641 has produced six National Champions or Reserves in 2010 and 2011, including Fire Girl, Ivory Angel, Rapid Fire, Bomshell and Turton. This record may have additional Champions coming this year in Denver! Take this champion and his champion heritage home in your trailer.

Here's an opportunity to invest in a herd sire that is unique in many ways. Barwin's pedigree is one of the first things that will set him apart from many of the bulls to be offered in 2014.

On the top side of his pedigree Barwin is a complete outcross from the breeds more popular pedigrees. Combine this with a powerful Western Spur/Wyoming Wind daughter on the bottom side and we feel that he has the blend of pedigree that will make him a sire that's easy to use in many different scenarios. When it comes to phenotype this young herd sire is just as unique as his pedigree. He combines power and flash into a big-ribbed, nice structured package. You will be impressed upon seeing him in Denver.

Barwin also has a proven show record that speaks well for itself also. In his only outing he was named the Grand Champion Charolais Bull and the Reserve Grand Champion Supreme Bull at the 2013 Tulsa State Fair.

This half-french bred sire has many positive traits that could be used in the Charolais breed as well as other segments of the beef business. Again, a unique offering that has the ability to stamp his mark on the breed for many years to come.

**Lot 5**

**CHOICE OF SILVER SPUR PEN BULLS**

*Selling 1/2 interest and full possession* in the buyer's choice of the Silver Spur Ranch National Western Pen of Bulls, all sons of CML Encore 4Y!

Silver Spur went looking for an outcross sire in the fall of 2011. They came home with CML Encore 4Y. He was the stoutest, biggest bodied bull calf they found in searching lots of miles. But his phenotype was just the start, his dam Wilma 3S was one of the most complete females we had ever seen. When he arrived in the U.S., Encore was shown as a yearling, being calf champion at Denver and Grand Champion at Fort Worth. He then collected easily and bred cows natural service in the late spring and summer of 2012. By the 2013 National Western, he came back to Denver as one of the most massive and athletic Charolais bulls many had seen. He was named the Reserve Grand at the National Western and then the National Reserve Grand Champion Bull at the National Charolais Show in Fort Worth.

For Silver Spur Ranches, Encore's value is not in the show ring. Instead, his value comes as a bull that is adding muscle, volume, fleshing ability, and bone to his offspring. At this point they do not plan to sell any more Encore semen in the U.S., this will be the first opportunity to own the first Encore son Silver Spur will sell! Their 2014 Pen-of-Bulls will all be Encore sons. These bull calves will exceed your phenotypic expectations and their real value comes as outcross sires to most of the pedigrees in the breed today. Study your lesson here; there is more investment and marketing opportunity than you have seen in a long time.

By the time this catalog comes out, the Encore sons that comprise the Silver Spur pen will have been selected and they invite your inquiry into seeing that list of his exciting sons.

In the fall of 2010 TR PZC Firegirl 9745W ET set the breed "a buzzin" when she highlighted the 32nd National Charolais Sale offering. Many came to buy her, only Nate Suttles had the foresight to make that winning bid at \$50,000 to claim the prize and everybody else went home with their tail between their legs! The next day that masterful move paid off for the first time in a long run of success stories, as Firegirl became the National Champion Female.

Firegirl carried a baby inside her that day and she was born on March 5, 2011. That heifer calf called Firedancer then brought back half of Nate's investment before even one year had past, when she sold for \$25,000 in the 2011 Northern Exposure Sale. The Suttles then mated Firegirl to their new 1/2 interest \$25,000 Keys All State, the 43rd National Show Reserve Junior Champion Bull and the outcome is another home run with this awesome pen of bulls. Also check out their full sister that sells as Lot 12.

Any of these young herd sire prospects can go on to the show ring or be a herd changer for the most astute breeding program. Remember a full brother in blood AM All World Z04 sold in last year's National Sale in Fort Worth and 1/2 interest brought \$17,000!

Look for this breed leading set of bulls "down in the Yards" in Denver and take your turn at a breed changing move!

## CHOICE OF EATON HERD SIRES

*Selling 1/2 interest and full possession*

Only during the National Western Stock Show in Denver does the Eaton Family make this selection possible. The winning bidder will get to choose from any of the Eaton 2013 herd sire prospects or one of their 100% owned Eaton raised proven Herd Sires already in their herd sire pen. There are over 80 Eaton bred bulls in that Eaton Bull Battery!

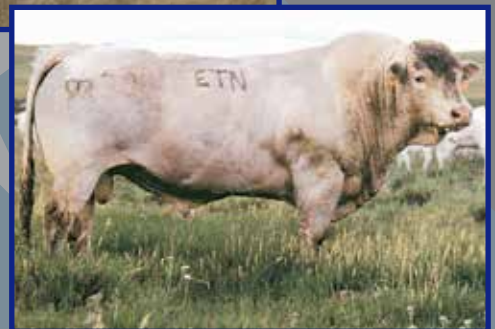

In that set of bulls are AI sons of LT Ledger 0332, Eatons Royal Dynasty 6164, LT Blue Mountain 1041 P, Eaton Blue Leader 0130 P, LT Blue Blood 1131 P, Eatons Big Bud 1402 P, Schurrtop Eaton Choice K717 P and Eatons Eclipse 8072. These young herd sire prospects are selected by the Eaton Family for calving ease, growth, testicle size, linebred predictability and the ETN reputation.

One hundred years of family ranching and 49 years of collecting carcass data has put many Eaton bred sires on the list of AICA Sire Summary Trait Leaders. 77 Eaton sires were listed on the Spring 2013 Sire Summary, with Trait Leaders for CE, BW, Milk, MCE, Multiple, Marbling and HCW. 13 of the breed's top 25 sires for Marbling are Eaton bred sires. Put one in your herd today.

The most exciting heifer calf to ever come out of the Wright Charolais & Cody Cattle Company joint E.T. program! Temptress is an incredible combination of perfect

phenotype and pedigree. She will leave some marks on our breed and many more marks on the heifers that she delivers a whipping to in the show ring!

She has all the rights in the world to be a good one. Her sire is our current National Champion Bull that dominated the field during the last National Show in Fort Worth and appears to be on the mark with his first outstanding offspring in the Lindskov-Thiel, Cody Cattle and Wright Charolais herds. Her dam is the incomparable Baldrige Sweetheart 7M, widely referred to as Budsmydads best daughter.

This heifer's full E.T. brother WC CCC Devil's Cut 3444 P ET was equally dominating during his first outing into the show ring, during the November 2013 Royal Breeder's Bull Classic where he ran away from the field to capture the \$5,000 prize money. Later that day he was also selected the American Royal ROE National Show Junior Bull Calf Champion award. Temptress and her brother come to Denver to compete!

Don't overlook the potential here. She will show with the best of them. She has pedigree heritage to win. She can lead your embryo donor program for years to come.

A full sister "in blood" to the great show and brood cow donor HF Mustang Sally 904 Pld!

HF Mustang Sally 904 was the 2010 AIJCA Junior National Reserve Grand Champion Heifer at the "Fun At The Falls"

Junior National in Sioux Falls, South Dakota in the summer of 2010. Mustang Sally followed that up with being named the 2010 Reserve Grand Champion Female at the South Dakota State Fair. Next she was Reserve Grand at the American Royal Junior Charolais Show and received the Reserve Junior Champion award during the National Show there in Kansas City. Her show career ended when Mustang Sally was named the 2011 National Western Stock Show Reserve Grand Female in Denver.

Wells Ms Mustang Bella 3005 ET can be seen on display down in the yards during the National Western in the Wells Charolais pens. You will love her soft disposition and great hair. Bella's dam has been a standout for the Wells family. She was born in March 2009 and placed her first calf born February 21, 2011 in the Wells Denver Pen-of-Heifers and was sold to Sandmeier Charolais. Her next great calf born in the spring 2012 and was kept as a replacement heifer. She then was flushed, but bred right back and had her spring 2013 bull calf sired by Reliance placed in our bull pen and will be an outstanding herd sire prospect.

Expect great things from a heifer bred like this in the purple and from a production based brood cow family.

### TO BENEFIT THE RANCHER RELIEF FUND!

All proceeds from this heifer will go to the Rancher Relief Fund to aid producers who sustained heavy livestock losses in the October 2013 Atlas Blizzard.

Breeders from multiple continents have long admired the Brenda cow family at Lindskov-Thiel Ranch. Their belief in this cow family's strength is evidenced by the 32 females now in the herd that go back to the original Brenda cow.

LT Brenda's Hope 3019 is another in this long line of maternal powerhouses. Her dam is a two-year-old Brenda female that has the highest udder score in her age group and is LT Ledger's maternal sister. Ledger is the popular, crowd-pleasing, \$105,000 record setting high-seller from the 2011 Lindskov-Thiel Bull Sale that is being heavily used in the breed today. This high-indexing heifer is sired by Multiple Trait Leader Oakdale Duke 9003, the Accelerated Genetics sire who is putting some highly useful daughters into the breed.

LT Brenda's Hope 3019 will write her own chapter in Charolais lore, with outstanding EPD and performance numbers, temperament and pedigree of merit. She'll add a spark to your herd while helping others rebuild theirs. This heifer will remain at the L-T Ranch during Denver. For a video of her please contact the ranch.

*Presented by:* Lindskov-Thiel Ranch, Brent Thiel, Isabel, South Dakota

If you would like to be a part of helping ranchers affected by this devastating blizzard rebuild their herds, contact Brent or Nancy Thiel about donating additional funds in any amount to the "Rancher Relief Fund." For more information, see the Lindskov-Thiel Ranch ad on the back cover of the December Charolais Journal.

*Sells open, ready to breed.*

This heifer is awesome! Her physical traits only enhance the value of her high-selling and National Championship genetic family history. Her sire topped the 2010 Effertz Key Ranch Bull Sale when 1/2 interest sold for \$25,000 and then he became the 2011 National Reserve Junior Champion Bull standing only behind Turton, the National Champion and full brother to this heifer's dam!

The dam, TR PZC Firegirl topped the 2010 National Charolais Sale at Kansas City for \$50,000 and became the National Champion Female the next day! Firegirl and her full sibs Ivory Angel, Turton, Rapid Fire and Bomshell have taken the breed by storm when in 2010 and 2011 accounted for five of the eight National or Reserve National Championships.

Also, go down in the yards and evaluate her full brothers in the Suttles Charolais Pen-of-Bulls. There is awesome power and strength in this superior mated heifer.

It's easy to see that this heifer will do some major damage in the senior yearling division this coming show season.

Bred AI on November 20, 2013 to LT Sundance 2251 Pld.

This is the best heifer to ever leave the J & S Ranch! She is everything you are looking for in a female; great-fronted, long-sided, heavy-boned with a big foot. This super broody

heifer might just be what you need for that next step.

Her sire Budsmydad has left his legacy intact across the country in countless herds as a cow producer with quality and longevity and this daughter could be one of his best ever out of this mother. The dam is Big Creek Angel, who made an impact in the show ring as a dominatrix as she commanded the title of National Champion Female in Louisville. She then went on to be a matriarch in the pasture producing many sale toppers and show stoppers, including Big Creek Indian Outlaw who won the Royal Breeder's Bull Classic and is a full sib to this heifer.

Angels My Mom will sell bred for a fall calf to the \$82,000 LT Sundance 2251 Pld, the LT Ledger 0332 son that is already making waves throughout the Charolais breed.

When she's done showing, this heifer could be the cornerstone of your future elite herd.

*Dam of Lot 15*

Bred AI on November 7, 2013 to LT Ledger 0332 Pld.

Only for an event like the National Charolais Sale would Jeannine and Jason part with this future donor deluxe! Addi is the only Hoodoo influence female in this sale and she will not disappoint those looking for those "hot Hoodoo" genetics. The Hoodoo's have been tearing up the tanbark and making tremendous producers when they are done.

This heifer's dam Addison, was a hit the last few years on the show road, gathering many fans and banners as a cow/calf pair. Many have admired her picture and her daughter Addi is a spitting image. You'll be hard pressed to find a female that offers as much softness and broodiness as this one, while keeping that feminine look.

These are the kind of females that produce the calves that make you money. A weaning age maternal sister sold in the 2011 Ten Grand Sale for \$5,400 and a flush in Addi's dam sold for \$4,000 to Texas. It's all there for a profit picture. Take advantage of this opportunity to add some different genetics to your herd with that next great donor to move in the right direction.

She sells bred to the hotter than hot, LT Ledger 0332 for a fall calf and that mating could be deadly. The sellers will retain one successful flush at their expense and at the buyer's convenience.

*Presented by:* Big Creek Charolais, Jeannine Doughty, Harrisonville, Missouri & Hankins Farm, Jason Hankins, Springfield, Missouri

## CHOICE OF OPEN M&M HEIFERS

M & M Charolais offers you the opportunity to select the best heifer possible from their entire 2013 heifer calf crop! You can select the most exciting

show heifer you can find, the best broody donor potential prospect or even the best combination of both!

There are 35 head of spring born 2013 heifers waiting for your inspection and to load on your trailer. Their first calves by LT Ledger 0332, Cooley Royce and CML Encore are included as well as outstanding daughters of DR Stealth, Fire Water and LT Long Distance 9001.

Make your plans today to travel to Perry, Oklahoma. Go through this outstanding set of tremendous heifers, check out each dam, look up the production records with manager Kevin Wiley in the office and look forward to loading your heifer choice on your trailer for the ride home and into a bright future with her!

Selection to be made by March 1, 2014.

This donor is loaded up with genetic potential!  
 As a weaning-age heifer calf she topped the 2009 Cannon Charolais Farms Sale at \$9,500 ending up in the hands of junior member Alex Creasey. She was the one that everybody

wanted that day. That was no small feat at the time in 2009, when one of the most outstanding set of heifer calves sold in quite some time went across the auction block. Other heifer calves in that sale sold for \$6,750, \$5,900, \$6,250, \$3,400, \$4,200, \$3,800, \$3,800 and \$5,500! Her dam, the famous SCC Ms Bud 418-1128 ET also sold that day to Hansen Charolais for \$10,500. It was said in the catalog that day that "she will be one of the great ones when we look back in a few years and Tom was quoted saying, "I cannot believe that I am letting this cow walk off my farm." Daughters have sold for \$41,000, \$15,000 and \$15,000! Both of those previous statements held a lot of truth in them. Tom keeps using the same verbiages when talking about this female.

This tremendous female can lead your E.T. program to new heights. She first calved before her second birthday on January 11, 2011 and has been in their E.T. program since. She had a natural born heifer calf (pictured), born January 2013 sired by Cooley Royce that will be in Alex Creasey's show string this coming year. She was bred on April 8, 2013 to TR Mr Fire Water 5792R ET, so is due to calve near sale date and will be kept in Iowa and ready for delivery at a later date. You are buying the pair!

Prepare yourself for success with this genetic giant in your E.T. program!

A genetic masterpiece just waiting to be multiplied. This female is a full sister to one of our breed's very best, JWK Vanessa D029!! D029 has long been noted as one of our great donor dams. 100 progeny have been registered out of her at

AICA. Both of these females are maternal sibs to JWK Ruby D205, JWK Choice Plus, JWK Erma E216 and JWK Pamela E167. Their famous dam HBR Lady Performer 934 has 127 progeny registered at AICA!

This tremendous female has one great advantage on Vanessa D029 and her maternal sibs; she is very, very young compared to them! She first calved before her second birthday on September 16, 2012 and weaned that heifer calf off to an outstanding 725 lbs. ratio 104. MV 934 Vanessa 280 ET was then successfully flushed two times producing 20 and 14 viable embryos. She then bred right back and is due to calve in the spring 2014 with a ultra sounded bull calf pregnancy sired by MV 5571 Stone Mountain 303, a son of Cooley Limestone out of a Duke 914 x Hoodoo cow. That bull had a 970 lbs. adjusted weaning weight!

You won't find one younger and this most likely is the last full sister to JWK Vanessa D029 that will ever grace our breed. She will remain in Georgia for this sale and shipping arrangements will be made from there. Call Floyd Wampler if you'd like a second opinion.

*Presented by:* Mountain View Charolais, Scott Tipton, Clarkesville, Georgia

She possesses unlimited breeding potential. Hobbs selected this female from the entire Hale Farms herd on her own merits and then discovered she was a full sister to his choice of the herd that went into the 2011 National Sale! That great female sold in Louisville's National Sale for \$8,000 to Drew Foglesong and before the week was up; she sold again to Southern Cattle Company for \$10,000!

This donor dam comes from the most proven cow family in the Hale program. Her Smokester dam has 18 progeny registered at AICA. Her maternal granddam is a Sonderup bred donor SCR Miss Barney 1082 that anchored many great ones for Tom and Rick. This cow family is productive with broodiness, udder volume and capacity.

This good six year old has only been flushed once on December 2, 2011 and produced 24 quality embryos for Rick. She will be flushed one more time before the sale this past winter.

**Lot 19A** Polled bull calf, born: 9-10-13 sired by M6 Full Speed 109 P, a son of M6 New Standard that Hale Farms and Hudspeth Farms purchased in 2012 for \$10,000.

**Donor Dams & Choice Of Herd**

## CHOICE OF THE ENTIRE HEBBERT HERD

*Selling Buyers Choice of One Bred Heifer and One Bred Cow*

Only at Denver does the Hebbert family offer this unbelievable selection from the heart of their tremendous herd. Over the years some of our breed's most progressive breeders have made selections from the Hebbert herd including Eaton Charolais, Wright Charolais, Schurrtop Charolais, Silver Spur Ranches and Lindskov-Thiel Ranch.

This lot has intriguing and intrinsic value. You may wait until these females have calved out in late February, March and early April and make your selection after seeing their udders, their calves at side, pick a calf sired by a certain sire, pick a bull or heifer calf at side; how much easier can it be to choose your next great donor and her 2014 calf at side to show, make another potential donor from or even your next powerful herd sire at side!

**Lot 20A** Select from 300 head of mature brood cows, many which are sired by LT Long Distance 9001, M6 Grid Maker 104, LT Unlimited Ease, RC Montana and LT Easy Blend. Most will have calves sired by LT Blue Rock (3/4 brother to LT Ledger 0332), Box P Pendleton (LT Bluegrass son), HC Long Range 1395 (LT Long Distance son out of Oakdale Duke 9003 daughter) and M6 Grid Maker 104 P ET.

**Lot 20B** Select from 96 head of first-calf-heifer pairs. Most are sired by the same list of sires as their dams above (there's a novel idea, buy both lots and get the whole family, mother and daughter and both calves)! These heifers will have calves sired by; LT Long Distance 9001, Oakdale Duke 9003, HC Long Distance 1395 (a Long Distance son out of Duke 9003 daughter, starting to look like a planned breeding program doesn't it) and LT Ledger 0332.

The Hebberts would like these selections to be made by May 1, 2014, so these cattle can be moved out to summer breeding pastures. Come and enjoy the Hebbert hospitality in the Sandhills of Nebraska.

*Presented by:* Hebbert Charolais Ranch, Dave Hebbert, Hyannis, Nebraska

**Lot 21**

**CHOICE OF TWO EATON FEMALES**

Your opportunity to own a breed leading Eaton female. They will sell the first "choice of the herd" and then one more "choice of the herd" or double the bid and sweep the ring. The Eaton family only offers this selection once a year and always in Denver during the National Charolais Sale. There are 1,515 females enrolled in the AICA Whole Herds Rewards program, from which you will get to sort through. Just think of it! Your choice from over 1,500 brood cows! There are the following females in that herd that rank in the TOP 25% of the breed; for Birth Weight EPD there are 730 females in the top 25%, for Milk 1,175 females, for MCE 888 head and for Total Maternal 700 cows in the top 25%! These are some awesome numbers to work with, but you will get to go out into their vast pastures and sort out the eye-appealing female, with an outstanding production record that you like the best and the numbers to back it up.

These females are just what you'd expect; easy fleshing, linebred uniformity, heavy milking and branded with that respected ETN reputation! One only needs to read the AICA Sire Summary to see the impact the Eaton genetics are having upon the breed. Countless Trait Leaders with the ETN prefix grace those sire names in that data base. There are over 112 Eaton brood cows that are either AICA Diamond or Sterling Dams of Distinction!

Don't take this undertaking lightly. It will take some time, some travel, some patience's and some brains! You will have an unrestricted selection from every brood cow in the herd and you can wait for most of them to be calved out, so you will get to select a bull calf or a heifer calf at side with these selections. The Eaton family would like this selection to be completed by May 1st, before the breeding season begins.

Look forward to your opportunity here!

Goin' Places

Every time she goes out, she gets a "piece of the pie!"  
 After topping the December 2012 Ridder Farms "Showgirls" Sale at \$10,000 selling to C & H Farms, this fantastic heifer has gone out and kicked a lot of the very best show heifers around a little bit.

In her first outing in February 2013, she went to the National Show in Fort Worth, won her class and was the National Junior Calf Champion. In July during the AIJCA Junior National she was a National class winner and the Division 5 Champion. RF Greta kept it going in August at the 2013 Missouri State Fair she was Senior Champion Female and Grand Champion and this past November at the 2013 American Royal National ROE Show she was selected the Senior Champion Female. She comes to Denver "in the hunt" so be prepared after you buy this flush to order pictures the next day in front of the purple banner!

Her maternal granddam is the famous Riverdale Land & Livestock bred Goin' Places that was the 2005 National Reserve Grand Champion Female and later sold in the 2006 National Sale for \$14,000 when that figure wasn't very common. RF Greta 96Z P is due to calve the second week of February and will be ready to flush soon after.

Dam of Lot 24

This special sale attraction offers unlimited genetic potential for progeny that are sure to win your attention. This flush is out of AML Vanessa 107 ET a great young donor that looks as good on paper as she does in the picture. Her maternal granddam is the now deceased breed legend, JWK Vanessa D029, one of our breed's very best. Her dam #4131 is one of Oak Hill Farms best products and is now a donor for Bamboo Road's E.T. program. A full sister to her #4120 sold for \$16,500 in the 2007 National Sale in Louisville.

Only on rare occasions such as the National Sale does opportunities come along to flush your "dream" female to the sire of your choice. The show career of this heifer matches her terrific phenotypic profile. She has gathered many purple banners this past summer including many Supreme Championship titles such as the 2013 Tulsa Supreme trophy.

The opportunities are endless with a female like this, just look at the picture again, gaze upon her in Denver with her fall born calf at side and when the National Sale starts make your "dream" mating come true!

This heifer has been a winner from the start and it doesn't appear that she is ending anytime soon. Look for Caught On Fire in Denver to be in the hunt for the National Championship banner!

Sired by the National Champion siring Fire Water puts this female on an upper level, but when you add her great dam to the mix, it only gets higher. Read more about that side of the pedigree in the following flush lot.

This tremendous female got everybody's attention during the 2012 Northern Exposure Sale when she commanded \$9,000 at auction selling from Wal-Mar Charolais to Taylor Goering. A few months later she captured even more attention at the 2013 National Show in Fort Worth for Taylor when she was selected the National Spring Calf Champion beating heifers that had sold recently for \$16,000 and \$11,000! Since that time Caught On Fire has compiled numerous trophies and banners including several Supreme Championships, a National AIJCA class winner and most recently; putting it on many high dollar show heifers at the 2013 American Royal with her Junior Champion Female award and then the Grand Champion Junior Show at the North American in Louisville..

If you're looking for power and balance, show ring appeal and crowd popularity, your search is over. Her progeny by any blend of purebred or calf-calf herd sires will not disappoint.

Where could you find more show heifers like the one cataloged above with Wal-Mar Caught On Fire 205 P? Well, here is your chance to create your own, exactly like her, with a guaranteed flush in Caught On Fire's dam!

The future looks very bright for Wal-Mar Ms Southwest 810 to become one of the leading donors of the breed. She is a daughter of the National Reserve Grand Champion Bull DR Stealth and out of the AICA 2005-06 Show Female of the Year, Big Creek Mae West. The Marston's have six daughters of Mae West in their small but mighty herd in the middle of Kansas and she is due to calve again in the spring of 2014. Mae West has continued to produce great females that not only excel in the tan bark, but produce in the pasture after their show days are over.

Wal-Mar Caught On Fire 210 P has made many friends in the Charolais breed and maybe more importantly with cattlemen of many breeds. This will be a great opportunity to make more cookies with the same cookie cutter! Wal-Mar Ms Southwest 810 calved in November and will be ready to flush immediately to the mating of your choice, including maybe a set of full sibs to the new National Champion Female!

Only in the National Charolais Sale would Shad and his daughter think about offering their best genetic jackpot. The excitement is high and the opportunity is here now to grab hold of some of the top, proven genetics of our breed that will lead you on for years to come.

Wal-Mar Caught on Fire 210 P

816.392.9241

### Sale Sponsor:

AICA/Charolais Journal  
J. Neil Orth, Executive Vice President  
(816) 464-2474 ext. 101

### Stalling:

Sale cattle will be stalled with individual breeder/exhibitor in the stalling area "on the Hill" or "in the Yards."

### Flushes:

All flushes sell as a "Guaranteed Successful Flush" defined as EITHER a minimum of seven (7) frozen embryos if all embryos are frozen at the time of the flush OR a minimum of four (4) ninety-day pregnancies if all embryos are put in fresh at the time of the flush.

### Release of Sale Cattle:

All sale cattle will be released upon the conclusion of the sale and upon buyer's settlement with the sale clerk. Appropriate release forms must be obtained from the sale clerk.

### Trucking:

Professional truckers will be available and breeders from all parts of the United States will be on hand.

Contact Greg Hubert, National Sale Manager for assistance.
